

The LOP Lid Opener is the ideal tool to position cables or hoses in an already existing cable trench – suitable for excavators from 4t - 24t / 8800 - 52800 lbs operating weight. Does three jobs in one move: Opening the lid, laying or pulling out the cable, closing the lid after this.

- ▶ **Low weight.**
- ▶ **Efficiency:** opens and closes the lid in one single movement.
- ▶ **Flexibility:** adjustable for different cable trenches.
- ▶ **Easy handling.**
- ▶ **LOP 02: optionally with turnable upper bracket.**

Lid Opener LOP

Type	Weight (kg/lbs)	Length (mm/in)	Height (mm/in)	Width max. (mm/in)	Trench lid width (mm/in)	Trench wall thickness (mm/in)	Lid thickness (max. mm/in)
